

Public Notice

The City of Garfield is in the process of developing a wellhead protection plan for its drinking water supply wells. As required by the Minnesota Wellhead Protection Rule (part 4720.5330, subpart 6), the Minnesota Department of Health approved Part 1 of the wellhead protection plan for our system on September 16th 2014. This portion of the plan includes information pertaining to:

1. The delineation of the wellhead protection area,
2. The drinking water supply management area boundary, and
3. The well and drinking water supply management area vulnerability assessment.

If you would like to view a complete copy of the Part 1 plan containing the technical information used to delineate the wellhead protection area, drinking water supply management area, and vulnerability of the wells and aquifer, a copy is available at the Garfield City clerk's office Monday-Thursday during normal business hours.

Consistent with the Wellhead Protection Rule (part 4720.5330, subpart 7), a public information meeting has been scheduled at 6pm on Monday, November 10th at 116 Sanstead St W, to discuss issues and concerns with this portion of the plan. We welcome your participation at this event.
