

SUMP PUMP USEAGE

Ordinance #103

City of Garfield Sewer Ordinance

The City of Garfield's Ordinance #103 prohibits draining groundwater into the sanitary sewer system. As part of the City's goal to minimize infiltration of groundwater into the sanitary sewer system, the City is considering conducting compliance inspections.

Monthly reports on the City's water distribution system and sanitary sewer system show that the amount of wastewater received into the sanitary sewer system is considerably more than the water distributed to city residents by the water distribution system. If this trend continues, the capacity of the City's retention ponds for the sanitary sewer will be exceeded.

Your sump pumps are to be running outside, not into the City's sanitary sewer system.

**** NOTICE ****

UTILITY RATE INCREASE

At the October 15, 2019 City Council meeting, Council passed an increase to the monthly water/sewer rates. The monthly base rate will increase from \$70.87 to \$72.00. This change will take effect with the January 25th billing.
